Section 1 Chemical Product and Company Identification

Product Identifier MiraMag® Resist Remover

Product Number IR-CHE8510

General Use Stripping photoresist from magnesium plates

Company UEI Systems®, a UEI Group Company

Address 9090 Nieman Road

Overland Park, KS 66214 USA

Phone +1 800 221 9059 or +1 913 541 0503

Emergency Contact Number CHEMTEL – Available 24 hours/day, 7 days/week

Domestic North America: +1 800 255 3924

International: +1 813 248 0585

Section 2

Hazards Identification

GHS Classification

Hazard Class	Hazard Category	Route of Exposure
Corrosive to metals	1	_
Skin Corrosion	1	_
Serious Eye Damage	1	_
Acute Aquatic Toxicity	3	

GHS Labeling

Contains Sodium Hydroxide (1310-73-2)

Danger

Hazard Statements May be corrosive to metals

Causes severe skin burns and eye damage

Causes serious eye damage Harmful to aquatic life

Precautionary Statements Keep only in original container

Wash skin thoroughly after handling Avoid release to the environment

Wear protective gloves/protective clothing/eye protection/face protection

Response If Swallowed: Call a Poison Center or doctor/physician if you feel unwell.

Rinse mouth. Do **not** induce vomiting.

If On Skin (or hair): Remove/take off immediately all contaminated clothing.

Rinse skin with water/ shower.

If Inhaled: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If In Eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a Poison Center or doctor/ physician.

Wash contaminated clothing before reuse. Absorb spillage to prevent material damage.

Section 2	Hazards Identification, continued			
Storage	Store locked up. Keep in original container. Store in corrosive-resistant, stainless steel container with a resistant inner liner.			
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations			
Section 3	Hazardous Ingredients / Identity Information			
Mixtures	Composition range is provided; specific compositions are withheld as a trade secret.			
	Hazardous Components CAS No. %			
	Sodium Hydroxide 1310-73-2 60 Proprietary mixture of non-hazardous ingredients NA 40			
Section 4	First Aid Measures			
Inhalation	If inhaled and if breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. If experiencing respiratory symptoms, consult with a medical professional.			
Skin Contact	For even minor contact, immediately remove contaminated clothing. Wash skin thoroughly with mild soap and water.			
Eye Contact	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.			
Ingestion	If swallowed, rinse mouth with water (only if the person is conscious). Do not induce vomiting unless directed to do so by medical personnel.			
Symptoms and Effects, both Acute and Delayed				
Inhalation	May cause respiratory irritation/burning			
Skin Contact	Causes severe skin burns and eye damage			
Eye Contact	Risk of serious damage to eyes			
Ingestion	May cause burns to gastrointestinal tract			
Section 5	Firefighting Measures			
Extinguishing Media	Not combustible. If there is a fire close by, use suitable extinguishing agents.			
Fire Hazard	The product itself will not burn.			
Explosion Hazard	The product is not explosive.			
Reactivity	Spontaneous polymerization will not occur			
Firefighting Equipment/Instructions	All extinguishing media can be used. Do not enter fire area without proper protective equipment, including respiratory protection. Wear fire/flame resistant/retardant clothing. Wear a self contained breathing apparatus. EN469

Section 6	Accidental Release M	leasures			
Protective Equipment for Non-Emergency Personnel	Wear suitable gloves resistar	nt to chemical	penetratio	n: rubber. Avoid contact	t with skin and eyes.
Emergency Procedures for Non-Emergency Personnel	Stop leak without risks if po material and shoveled into				bustible absorbent
Protective Equipment for Emergency Responders	Avoid eye and skin contact (EN 166). Wear suitable pro				st liquid splashes
Emergency Procedures for Emergency Responders	Stop leak without risks if pospillage to water course or absorbent material and sho by mixing it with inert gran	drain. Small q ovel into conta	uantities	of liquid spill: take up ir	n non-combustible
Environmental Precautions	Neutralize prior to disposal	l (pH between	5.5 and 8	.5)	
Methods for Cleaning Up	Contain any spills with dike streams. Absorb and/or con			_	-
Section 7	Handling and Storag	e			
Handling Precautions	Avoid eye and skin contact well-ventilated location. Op to extreme temperatures. At this product.	en containers	slowly on	a stable surface. Do no	t expose containers
Hygiene Measures	Wash thoroughly after usin Remove contaminated clot				this product.
Storage Requirements	Store in original container. Product should be stored in	•			-
Incompatible Materials	Incompatible with water-reother metals.	eactive materi	als, strong	oxidizers, strong acids	, aluminum and
Storage Area	Store in dry, cool, well-vent should be separated from o of non-combustible materi hours. Storage areas should	oxidizing mater ial at least 5 fe	rials by a r et high ha	ninimum distance of 20 aving a fire-resistance ra	feet or by a barrier
Section 8	Component Exposure	e Limits			
Control Parameters	Hazardous Components	CAS No.	%	OSHA (PEL/TWA)	ACGIH TLV
	Sodium Hydroxide	1310-73-2	60	2 mg/m³	2 mg/m³
Appropriate Engineering Controls	Avoid splashing. Provide loca	al exhaust venti	lation of cl	osed transfer systems to	minimize exposures.
Personal Respiratory Protection	A properly fitted respirator where heavy mist is formed	_	es suitable	e for mists is recommer	nded in instances
Hand Protection	Wear protective, water-pro	of gloves			
Eye Protection	Use splash goggles when e	eye contact du	e to splas	hing is possible	
Skin Protection	Wear protective clothing

Section 9	Physical and Chemical Pro	perties		
Appearance/Odor	Clear liquid/odorless	Odor Threshold	No data	
рН	No data	pH Solution	14	
Boiling Point	221-284° F (105-140° C)	Melting Point	10–50° F (-12 – -10° C)	
Solubility (H ₂ O)	Material highly soluble in water	Specific Gravity	No data	
Evaporation Rate	Similar to water	Relative Vapor Density	1.38 (Water = 1)	
Decomposition Temperature	No data	Auto Ignition	No data	
Self-ignition Temperature	No data	Flash Point	No data	
Relative Vapor Density	1.38 (Air = 1.0)	Relative Density	1.327 g/cm³ at 77 °F (25 °C)	
Vapor Pressure	< 24 hPa (< 18 mmHg) at 68 ° F (2	0°C) Flammability	Not flammable	
Viscosity, Dynamic	No data	Freezing Point	Similar to water	
Section 10	Chemical Stability and Rea	activity		
Reactivity	Normally stable, even under fire exposure conditions, and not reactive with water			
Chemical Stability	Stable under normal conditions			
Possibility of Hazardous Reactions	No data available			
Conditions to Avoid	Keep away from strong acids. Refer to Section 7.			
Incompatibility	Water, acids, Organic materials, Chlorinated solvents, Aluminum, Phosphorus, Tin/tin oxides,			

By-Products	No data available	

Hazardous Decomposition/

Zinc

Toxicological Information
Dermal (skin contact), Inhalation, and Ocular (eye contact) Inhalation may cause irritation, cough, shortness of breath. Skin contact may cause irritation. Contact with eyes may cause irritation.
The most serious short term effects are due to contact with eyes and skin, resulting in irritation. No data available
Skin - Rabbit (Sodium hydroxide) Result: Causes severe burns 24 h
Eyes - Rabbit (Sodium hydroxide) Result: Corrosive - 24 h
Will not occur
No data available

9090 Nieman • Overland Park, KS 66214 • (913) 541-0503 • Toll Free: 800-221-9059 • sales@ueisystems.com • ueisystems.com

Section 12 Ecological Information

Toxicity

Component	Species	Exposure Time	LC50/EC50/IC50
Sodium Hyroxide (1310-73-2)	Gambusia affinis (Mosquito fish) Oncorhynchus mykiss (Rainbow trout)	96 hrs 96 hrs	LC50 125 mg/l LC50 45.4 mg/l
(1313732)	Daphnia (Water flea)	48 hrs	EC50 40.38 mg/l

Persistence/Degradability The methods for determining the biological degradability are not applicable to inorganic

substances.

Bioaccumulative Potential No data available

Mobility in Soil No data available

Section 13 Disposal Considerations

Disposal Instructions Depending on the local regulations, it may be disposed of as solid waste or incinerated in a

suitable installation. Dispose in a safe manner in accordance with local/national regulations.

Section 14	Tra	ansportation Informa	ation		
DOT (US)		IMDG		IATA	
UN number	1824	UN number	1824	UN number	1824
Class	8	Class	8	Class	8
Packing group	II	Packing group	II	Packing group	II
Proper shipping name		EMS-No	F-A, S-B	Proper shipping name	
Sodium hydroxide solution		Proper shipping name	9	Potassium hydroxide solution	
Reportable Quantity (RQ)	1,000 lbs	SODIUM HYDROXIDE	SOLUTION	Sodium hydroxide solution	
Poison Inhalation Hazard	No				

Section 15 Regulatory Information

Component Analysis – State

SARA 302 Components

SARA 302 No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 313 Components

SARA 313 This material does not contain any chemical components with known CAS numbers that

exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

SARA 311/312 Hazards No SARA Hazards

	Right To Know Components	CAS-No	Revision Date	
Massachusetts	Sodium Hydroxide	1310-72-2	2007-03-01

End Notes

- 1. SARA Signed into law in 1986, the Superfund Amendments and Reauthorization Act (SARA) is an extension of CERCLA, and is intended to encourage and support local and state emergency planning efforts. SARA provides citizens and local governments with information about potential chemical hazards, and calls for facilities that store hazardous materials to provide officials and citizens with data on the type and amount on hand at specific locations. This field states whether a material is listed or not listed in section 372.65 of SARA. EHS - This states if a material is listed or not listed in Appendix B to part 355, the SARA Extremely Hazardous Substances (EHS) section. RQ is the reportable quantity. TPQ is the Threshold Planning Quantity.
- 2. RCRA The Resource Conservation and Recovery Act enacted in 1976 and subsequently amended, controls solidwaste disposal and encourages recycling. This states whether a material is listed or not listed under this regulation. If listed the Hazardous Waste Number and waste characterization assigned by RCRA is also provided.
- 3. CERCLA Enacted in 1980 and amended thereafter, the Comprehensive Environmental Response, Compensation, and Liability Act provides for identification and cleanup of hazardous materials released on land, into the air, waterways, and groundwater. It covers areas affected by newly released materials and older leaking or abandoned dump sites. This states whether a material is listed or not listed in CERCLA Table 302.4. If listed the section(s) that it is listed under and the Reportable Quantity (RQ) are also provided.
- 4. TSCA The Toxic Substances Control Act controls the exposure to and use of raw industrial chemicals not subject to other laws. This states whether the chemical is listed or not listed under this regulation.
